

# HYDROPHILIC FUMED SILICA

# CAB-O-SIL® M-5 Fumed Silica

CAB-O-SIL M-5 fumed silica is a medium surface fumed silica which enables a significant increase in viscosity in liquid systems, free flow of powders and reinforcement of silicone and organic rubbers.

# All untreated fumed silicas are characterized by:

- High purity
- Aggregated structure
- Submicron particle size
- Low bulk density
- Hydrophilic surface

# **Application Information**

# Rheology Control for Coatings, Adhesive and other Liquid Systems

CAB-O-SIL M-5 fumed silica is widely used to provide thickening, thixotrophic (shear thinning), and anti-settling behavior in liquid systems. CAB-O-SIL M-5 fumed silica is most efficient in non-polar to medium polarity systems. For more polar systems, treated fumed silicas are more effective. This product offers an excellent balance of thickening efficiency and dispersibility.

# Free-flow of Powder Systems

When blended into sticky and poorly flowing powder systems, CAB-0-SIL M-5 fumed silica reduces the angle of repose and improves powder flow. During storage of powder systems, CAB-0-SIL M-5 fumed silica can reduce caking and blocking.

# Reinforcement of Silicone and Organic Rubber

CAB-O-SIL M-5 fumed silica can be used for reinforcement of silicone and organic rubbers. It imparts increases in hardness, tensile strength and elongation.

# CAB-O-SIL® M-5 Fumed Silica

# **Packaging Options**

CAB-O-SIL M-5 fumed silica is packaged in multi-wall Kraft paper bags and flexible intermediate bulk containers (FIBCs). In North America it is available in poly-shrouded units containing 18 x 10 lb. paper bags (180 lb. net weight) and in 250 lb. FIBCs. In Europe and Asia it is available in poly-shrouded units containing 18 x 10 kg paper bags (180 kg net weight) and in 150 kg FIBCs.

# **Material Safety Data Sheet**

A Material Safety Data Sheet for this product may be obtained from your local Cabot representative or can be downloaded from our website at cabotcorp.com.

## **Product Sales Specifications**

Sales specifications for this product may be obtained from your local Cabot representative.

#### NORTH AMERICA

Cabot Corporation Business and Technical Center 157 Concord Road Billerica, MA 01821-7001
